De kunst van het oorlogvoeren Sun-tzu 2015-04-09 De kunst van het oorlogvoeren blijft hét meesterwerk van Sun-Tzu gezien de belangrijke factor die oorlog speelt in de geschiedenis, maar ook blijvend actueel blijft in de huidige tijd. Oorzaak hiervan is natuurlijk de 'oorlogszomer' van 2014. Het boek bevat Sun-Tzu's essays die de oudst bekende verhandelingen over het onderwerp beschrijven. Deze teksten zijn nooit overtroffen wat omvang en diepte betreft. De meerwaarde van dit boek is dat zijn gedachtegoed is voorzien van een helder geschreven commentaar. Door het meesterlijke strategische inzicht van meester Tzu geldt de toepasbaarheid van het boek ook voor het bedrijfsleven en is dit boek een goede aanbeveling voor managers, bestuurders en leidinggevenden. Het voorwoord van H.J.A Hofland, de beste journalist van de 20e eeuw bleef in stand voor deze uitgave. Het omslag van De kunst van het oorlogvoeren is aangepast en bij de verschijning is ook het e-book gereed dat nog niet eerder is uitgegeven.

1914 Margaret MacMillan 2014-01-07 Aan het begin van de twintigste eeuw dachten veel mensen dat een lange periode van welvaart, vooruitgang en vrede was begonnen: 1913 was een bruisend en optimistisch jaar. Maar een jaar later begon voor Europa de bloedigste periode in haar geschiedenis, die mensenlevens en economieën verwoestte en aan het slot waarvan het zijn wereldwijde invloed ook nog eens kwijt was. Hoe kon dit gebeuren? Wát is er eigenlijk gebeurd? In 1914, een fascinerende reconstructie, laat Margaret MacMillan zien dat niet alleen technologische en politieke ontwikkelingen maar ook momenten van menselijke zwakte Europa richting afgrond leidden.

Austerity and Recovery in Ireland William K. Roche 2016-12-06 In international commentary and debate on the effects of the Great Recession and austerity, Ireland has been hailed as the poster child for economic recovery and regeneration out of deep economic and fiscal contraction. While the genesis of Ireland's financial, economic, and fiscal crisis has been covered in the literature, no systematic analysis has yet been devoted to the period of austerity, to the impact of austerity on institutions and people, or to the roots of economic recovery. In this book a group of Ireland's leading social scientists present a multidisciplinary analysis of recession and austerity and their effects on economic, business, political, and social life. Individual chapters discuss the fiscal and economic policies implemented, the role of international, and, in particular, of EU institutions, and the effects on businesses, consumption, work, the labour market, migration, political and financial institutions, social inequality and cohesion, housing, and cultural expression. The book shows that Ireland cannot be viewed uncritically as a poster child for austerity. While fiscal contraction provided a basis for stabilizing the perilous finances of the state, economic recovery was due in the main to the long-established structure of Irish economic and business activity, to the importance of foreign direct investment and the dynamic export sector, and to recovery in the international economy. The restructuring and recovery of the financial system was aided by favourable international developments, including historically low interest rates and quantitative easing. Migration flows, nominal wage stability, the protection of social transfer payments, and the involvement of trade unions in severe public sector retrenchment - long-established features of Irish political economy - were of critical importance in the maintenance of social cohesion.

Organizing For Peace Robert Kleidman 1993-08-01 Organizing for Peace skillfully compares and analyzes the three major campaigns of the peace movement in the United States since World War I - the Emergency Peace Campaign (1936-1937), the Atomic Test Ban Campaign (1957-1963), and the Nuclear Weapons Freeze Campaign (1979-1986). Kleidman shows how the campaigns organizational dynamics shaped their rise, course, fall, and impact both on public policy and on the peace movement itself. But as Kleidman points out, the three groups failed despite widespread mobilization and intense activism. Combining careful historical research with insights from contemporary social movement theory, this book sheds new light on the campaigns and the peace movement, as well as on key aspects of social movement organizations, cycles, and trends. Particularly valuable for policy and analysis is Kleidman's framework of organizational tensions. Social scientists and historians, particularly students and scholars of social movements and peace movements, will value the policy implications and analytical rigor of this book.

Kapitaal in de 21ste eeuw Thomas Piketty 2014-10-30 Een van de grootste problemen van de economie is de opeenhoping en de verdeling van kapitaal. Dat hangt nauw samen met problemen van ongelijkheid, van concentratie van welvaart en van economische groei. Bevredigende oplossingen voor die problemen waren tot nu toe moeilijk te vinden. Theorieën te over, maar relevant historisch onderzoek was niet voorhanden. In Kapitaal in de 21ste eeuw analyseert Thomas Piketty een groot aantal gegevens uit de laatste twee eeuwen en uit twintig landen. Zo weet hij fundamentele economische en sociale processen bloot te leggen. Hij toont aan dat de moderne economische groei en de spreiding van kennis ons in staat hebben gesteld om de ongelijkheid op apocalyptische schaal die Marx had voorspeld te voorkomen. Maar de diepere structuur van kapitaal en ongelijkheid is er in wezen niet door veranderd, zoals we in ons optimisme na de Tweede Wereldoorlog dachten. De belangrijkste oorzaak van de ongelijkheid is de tendens dat de opbrengst op kapitaal groter is dan de economische groei - iets wat nu tot extreme ongelijkheid dreigt te leiden. Het wakkert de onvrede aan en ondermijnt democratische verworvenheden. Het is aan de politiek om die tendens in te tomen. Kapitaal in de 21ste eeuw is een buitengewoon ambitieuze onderneming, waarvan de grote waarde alom wordt erkend. Het is een herbezinning op de economische geschiedenis en het dwingt ons de werkelijkheid nuchter onder ogen te zien.
