Aria voor een verleden Emily St John Mandel 2012-03-28 Anton Waker komt uit een familie van kleine criminelen. Samen met zijn nicht Aria handelt hij in valse paspoorten en ID-bewijzen. Maar Anton besluit uit het criminele leventje te stappen; hij vervalst nog wel even een Harvard-diploma voor zichzelf, accepteert een goedbetaalde baan bij een degelijk bedrijf en hij verlooft zich. Vlak voor zijn bruiloft en huwelijksreis naar Italië wordt Anton echter gechanteerd door Aria: hij moet tijdens zijn huwelijksreis meewerken aan één laatste klus, anders vertelt ze Antons nieuwe echtgenote over zijn criminele verleden Het verhaal van Aria voor een verleden lijkt misschien simpel, maar de eenvoud bedriegt. Aan het einde van deze thriller blij je als lezer ademloos achter door het vernuft waarmee de structuur en de niet-lineaire plot zijn vormgegeven. Dit is een echte juweel van een thriller!

Capital Markets, Fifth Edition Frank J. Fabozzi 2015-10-23 The substantially revised fifth edition of a textbook covering the wide range of instruments available in financial markets, with a new emphasis on risk management. Over the last fifty years, an extensive array of instruments for financing, investing, and controlling risk has become available in financial markets, with demand for these innovations driven by the needs of investors and borrowers. The recent financial crisis offered painful lessons on the consequences of ignoring the risks associated with new financial products and strategies. This substantially revised fifth edition of a widely used text covers financial product innovation with a new emphasis on risk management and regulatory reform. Chapters from the previous edition have been updated, and new chapters cover material that reflects recent developments in financial markets. The book begins with an introduction to financial markets, offering a new chapter that provides an overview of risk—including the key elements of financial risk management and the identification and quantification of risk. The book then covers market participants, including a new chapter on collective investment products managed by asset management firms; the basics of cash and derivatives markets, with new coverage of financial derivatives and securitization; theories of risk and return, with a new chapter on return distributions and risk measures; the structure of interest rates and the pricing of debt obligations; equity markets; debt markets, including chapters on money market instruments, municipal securities, and credit sensitive securitized products; and advanced coverage of derivative markets. Each chapter ends with a review of key points and questions based on the material covered.

Garner's Modern English Usage Bryan Garner 2016-03-11 With more than a thousand new entries and more than 2,300 word-frequency ratios, the magisterial fourth edition of this book—now renamed Garner's Modern English Usage (GMEU)—reflects usage lexicography at its finest. Garner explains the nuances of grammar and vocabulary with thoroughness, finesse, and wit. He discourages whatever is slovenly, pretentious, or pedantic. GMEU is the liveliest and most compulsively readable reference work for writers of our time. It delights while providing instruction on skillful, persuasive, and vivid writing. Garner liberates English from two extremes: both from the hidebound "purists" who mistakenly believe that split infinitives and sentence-ending prepositions are malfeasances and from the linguistic relativists who believe that whatever people say or write must necessarily be accepted. The judgments here are backed up not just by a lifetime of study but also by an empirical grounding in the largest linguistic corpus ever available. In this fourth edition, Garner has made extensive use of corpus linguistics to include ratios of standard terms as compared against variants in modern print sources. No other resource provides as comprehensive, reliable, and empirical a guide to current English usage. For all concerned with writing and editing, GMEU will prove invaluable as a desk reference. Garner illustrates with actual examples, cited with chapter and verse, all the linguistic blunders that modern writers and speakers are prone to, whether in word choice, syntax, phrasing, punctuation, or pronunciation. No matter how knowledgeable you may already be, you're sure to learn from every single page of this book.

Class, Please Open Your Comics Matthew L. Miller 2015-04-23 Comics and sequential art are increasingly in use in college classrooms. Multimodal, multimedia and often collaborative, the graphic narrative format has entered all kinds of subject areas and its potential as a teaching tool is still being realized. This collection of new essays presents best practices for using comics in various educational settings, beginning with the basics. Contributors explain the need for teachers to embrace graphic novels. Multimodal composition is demonstrated by the use of comics. Strategies are offered for teachers who have struggled with weak visual literacy skills among students. Student-generated comics are discussed with several examples. The teaching of postmodern theories and practices through comics is covered. An appendix features assignment sheets so teachers can jump right in with proven exercises.
