On Writing the College Application Essay, 25th Anniversary Edition Harry Bauld 2012-08-21 One of the most stressful aspects of the college application process is the essay. Most students worry about what an admissions officer looks for in a writing sample. But that's the wrong way to approach this vital component, says former Ivy League college admissions officer Harry Bauld. At Brown and Columbia, he saw what prospective students often did wrong—and now tells you how to do it right. In this fully revised and updated edition of the classic guide to writing the best essay of your life, Bauld has written an insider's guide to writing an essay that will stand out from the pack. He advises you on how to find your authentic voice, gives you tools and ideas that will spark your imagination, and shows you how to approach themes with originality and panache to make even the most tired topics fresh. He'll tell you straight out what admissions officers aren't looking for: another platitudinous variation on one of the following themes (if you see your initial idea reflected in this list, think again): The trip ("I had to adjust to a whole new way of life.") My favorite things (puppy dogs, freedom, and chocolate chip cookies) The pageant contestant ("I think World Peace is the most important issue facing us today.") The jock ("Through wrestling I have learned to set goals and to work with people.") The autobiography ("Hello, my name is . . .") Tales of my success ("But, finally, when I crossed the finish line . . .") Pet death ("As I watched Buttons's life ebb away, I came to value . . .") Getting into the college of your dreams is tough. The competition is fierce. For more than twenty-five years, On Writing the College Application Essay has helped thousands of students improve their chances. Now, let it work for you.

So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Williams 2022-11-23 An important contribution to the scholarship on student writing and composition theory, this book presents a new approach to writing instruction based on linguistic research and theory. Selber 2012-12-05 Recognizing an increasingly technological context for rhetorical activity, the thirteen contributors to this volume illuminate the challenges and opportunities inherent in successfully navigating intersections between rhetoric and technology in existing and emergent literacy practices. Edited by Stuart A. Selber, Rhetorics and Technologies positions technology as an inevitable aspect of the rhetorical situation and as a potent force in writing and communication activities. Taking a broad approach, this volume is not limited to discussion of particular technological systems (such as new media or wikis) or rhetorical contexts (such as invention or ethics). The essays instead offer a comprehensive treatment of the rhetoric-technology nexus. The book's first section considers the ways in which the social and material realities of using technology to support writing and communication activities have altered the borders and boundaries of rhetorical studies. The second section explores the discourse practices employed by users, designers, and scholars of technology when communicating in technological contexts. In the final section, projects and endeavors that illuminate the ways in which discourse activities can evolve to reflect emerging sociopolitical realities, technologies, and educational issues are examined. The resulting text bridges past and future by offering new understandings of traditional canons of rhetoric—invention, arrangement, style, memory, and delivery—as they present themselves in technological contexts without discarding the rich history of the field before the advent of these technological innovations.
