Soviet Union In The Context Of The Nobel Prize: Facts, Documents, Thoughts And Commentaries Abram Moiseevich Blokh 2021-12-06
The result of meticulous research by Professor Abram Blokh, this book presents facts, documents, thoughts and comments on the system of the Nobel Prize awards to Russian and Soviet scientists. It provides a comprehensive overview of the relationship between the ideas expressed by the Nobel Foundation and those expressed by the autocratic and totalitarian regimes in Russia and the ex-Soviet Union during the 20th century who had the same attitude of revulsion toward the intellectual and humanistic values represented by the Nobel Prizes. To do his research, the author had access to the declassified documents in the archives of the Nobel Foundation for many years. Also included in the book are new materials obtained and developed by the author after the publication of the first two editions (in Russian). This additional information is from the archives of the Soviet Ministry of Foreign Affairs, the Russian Academy of Sciences, the Soviet Writers' Union et al. in Moscow and St Petersburg. These documents shed new light on the difficulties encountered during the attempts to integrate Russian and Soviet science into the world's intellectual community. This book would be of utmost interest to those who are interested in the history of science in Russia and the ex-Soviet Union, related to the Nobel Prize.

The Last Governor Jonathan Dimbleby 2017-08-30 1 July 1997 marked the end of British rule of Hong Kong, whereby this territory was passed into the hands of the Peoples Republic of China. In 1992, Chris Patten, former chairman of the Conservative Party, was appointed Hong Kong's last governor, and was the man to oversee the handover ceremony of this former British colony. Within the last five years of British rule, acclaimed journalist Jonathan Dimbleby was given unique access to the governor which enabled him to document the twists and turns of such an extraordinary diplomatic, political and personal drama. As Governor, Patten encouraged the necessary expansion of Hong Kong's social welfare system, striving to reconcile the basic rights and freedom of over 6 million people with the unpredictable imperatives of Beijing. Drawing on the insights of a host of senior figures, the author places the crisis in both its human and historical contexts, and presents some startling arguments about the conduct of British foreign policy on Hong Kong before and during Patten's tenure.

Cops, Drugs, Lawyer X and Me Paul Dale 2020-02-25 'How did a kid from the country who dreamed of joining the Victoria Police, end up on the wrong side of the bars? There are a lot of reasons, and I hope this story will help clarify some of them, not only for you, the reader, but for me too, because a lot of the time I am left shaking my head, wondering how things went so wrong.' Paul Dale knows he is tainted. After almost fifteen years as a cop, working in Homicide and rising to the rank of Detective Sergeant in the Victorian Drug Squad, he saw the worst of what people can do. But when he was accused and jailed firstly for drug offences and then for murder, Dale realised the murky world he was navigating was going to take him under too. Dale dealt with crims like Carl Williams, Terry Hodson and Tommy Ivanovic on the Melbourne streets. But when a burglary ended in Hodson's arrest, Dale's life started to unravel. He turned to Nicola Gobbo, a lawyer and friend he thought could help: the lawyer who became known as Lawyer X. Eventually exonerated of any crimes, Paul Dale's story reveals the shocking deals done at the highest levels of the Victorian Police Force and the damage wrought by Victoria Police's use of Lawyer X.

Report of the Zahid Mubarek Inquiry (Vols. 1 and 2) Zahid Mubarek Inquiry 2006-06-29 This report sets out the findings of the public inquiry into the murder in March 2000 at Feltham Young Offender Institution of Zahid Mubarek, an Asian teenager. Mubarek died after being attacked by another young prisoner, his cellmate Robert Stewart, who had a history of violence and racist behaviour. The report identifies the systemic shortcomings which the attack exposed and makes 88 recommendations to reduce the risk of such an attack in the future. Issues discussed include: the events leading up to the public inquiry, including previous investigations by the Prison Service and the Commission for Racial Equality; the mental health background and custodial history of Stewart; the events on the night of the attack; and the wider ongoing problems at Feltham of staff shortages and low staff morale, lack of resources and overcrowding; poor working practices and evidence of racism by staff and prisoners. Recommendations made include: the elimination of enforced cell-sharing should be a high priority for the Prison Service and it should publish guidelines to assist officers in the allocation of prisoners who have to share a cell, taking into account issues of ethnic and religious background; there should be a general rule that an unconvicted prisoner should not share a cell with a convicted prisoner; full cell searches should be carried out at least once every three months; prisoner councils should be set up as part of violence reduction strategies in prisons; improved diversity training for prison staff; and the need for a national database for security information on prisoners to improve the flow of information between and within establishments to help prisoner risk assessment procedures.

Brokering Access Mike Larsen 2012-08-10 Access to information (ATI) is widely regarded as a fundamental democratic right. Yet in Canada there still exists a struggle between the public's quest for accountability and our government's culture of secrecy. Drawing together the perspectives of social scientists, journalists, and ATI advocates, Brokering Access explores the policies and practices surrounding access to information at the federal, provincial, and municipal levels. This groundbreaking volume is the first of its kind to promote the idea that ATI should be used as a critical research strategy. It is a vital resource for scholars, policy makers, journalists, and anyone who is concerned about access to information and its effect on all Canadians.

A Social and Economic History of the Theatre to 300 BC: Volume 2, Theatre beyond Athens: Documents with Translation and Commentary Eric Csapo 2020-01-16 This is the second volume of A Social and Economic History of the Theatre to 300 BC and focuses exclusively on theatre culture in Attica (Rural Dionysia) and the rest of the Greek world. It presents and discusses in detail all the documentary and material evidence for theatre culture and dramatic production from the first two centuries of theatre history, namely the period c.500 to c.300 BC. The traditional assumption is laid to rest that theatre was an exclusively or primarily Athenian institution, with the inclusion of all sources of information for theatrical performances in twenty-two deme sites and over one hundred and twenty independent Greek (and some non-Greek) cities. All texts are translated and made accessible to non-specialists and specialists alike. The volume will be a fundamental work of reference for all classicists and theatre historians interested in ancient theatre and its wider

historical contexts.

Imperial Rome AD 284 to 363 Jill Harries 2012-03-07 This book is about the reinvention of the Roman Empire during the eighty years between the accession of Diocletian and the death of Julian. How had it changed? The emperors were still warriors and expected to take the field. Rome was still the capital, at least symbolically. There was still a Roman senate, though with new rules brought in by Constantine. There were still provincial governors, but more now and with fewer duties in smaller areas; and military command was increasingly separated from civil jurisdiction and administration. The neighbours in Persia, Germania and on the Danube were more assertive and better organised, which had a knock-on effect on Roman institutions. The achievement of Diocletian and his successors down to Julian was to create a viable apparatus of control which allowed a large and at times unstable area to be policed, defended and exploited. The book offers a different perspective on the development often taken to be the distinctive feature of these years, namely the rise of Christianity. Imperial endorsement and patronage of the Christian god and the expanded social role of the Church are a significant prelude to the Byzantine state. The author argues that the reigns of the Christian-supporting Constantine and his sons were a foretaste of what was to come, but not a complete or coherent statement of how Church and State were to react with each other.

The Big Conspiracy Folasade Odutola 2013-05-20 Aviation safety is of global concern. This book is about one person's experience as a non-hypocritical safety regulator in a challenging environment. The author has found her amazing career experience interesting to share. The hazards of playing politics and being hypocritical with safety regulation are clearly reflected in this book. From the human angle, it shows the ugly face of office politics and power play and their detrimental effects on those at the receiving end. The rather slow pace of progress in the aviation regulatory entity since the author's ordeal and her subsequent forceful retirement is a lesson in why responsible authorities shouldn't be cutting their noses to spite their faces.

Stanton Walter Stahr 2017-08-08 New York Times bestselling author Walter Stahr tells the story of Edwin Stanton, who served as Secretary of War in Abraham Lincoln's cabinet. "This exhaustively researched, well-paced book should take its place as the new, standard biography of the ill-tempered man who helped to save the Union. It is fair, judicious, authoritative, and comprehensive" (*The Wall Street Journal*). Of the crucial men close to President Lincoln, Secretary of War Edwin Stanton (1814–1869) was the most powerful and controversial. Stanton raised, armed, and supervised the army of a million men who won the Civil War. He directed military movements. He arrested and imprisoned thousands for "war crimes," such as resisting the draft or calling for an armistice. Stanton was so controversial that some accused him at that time of complicity in Lincoln's assassination. He was a stubborn genius who was both reviled and revered in his time. Stanton was a Democrat before the war and a prominent trial lawyer. He opposed slavery, but only in private. He served briefly as President Buchanan's Attorney General and then as Lincoln's aggressive Secretary of War. On the night of April 14, 1865, Stanton rushed to Lincoln's deathbed and took over the government since Secretary of State William Seward had been critically wounded the same evening. He informed the nation of the President's death, summoned General Grant to protect the Capitol, and started collecting the evidence from those who had been with the Lincolns at the theater in order to prepare a murder trial. Now Walter Stahr's "highly recommended" (*Library Journal*, starred review) essential book is the first major account of Stanton in fifty years, restoring this underexplored figure to his proper place in American history. "A lively, lucid, and opinionated history" (*Kirkus Reviews*, starred review).
