Verheven koninkrijk Yaa Gyasi 2020-09-03 Gifty is een briljante studente neurowetenschap aan de universiteit van Stanford. Haar drijfveer is de fatale overdosis van haar broer, verslaafd aan pijnstillers, en de depressie van haar moeder. Gifty is vastberaden om de wetenschappelijke oorzaak te vinden van al het verdriet en lijden dat haar leven domineert. Dan zet een telefoontje haar eenzame leven in haar laboratorium volledig op zijn kop. Haar moeder wil zelfmoord plegen en ten einde raad neemt Gifty haar in huis. Het brengt haar weer terug naar het geloof dat zoveel houvast gaf in haar jeugd. De kerk waar ze in opgroeide belooft verlossing, maar gaf nooit duidelijkheid hoe die te bereiken. Terwijl haar moeder in bed blijft liggen worstelt Gifty tussen geloof en wetenschap, en zoekt naar een manier om haar liefde voor haar familie in daden om te zetten. Verheven koninkrijk is een ontroerend portret van een Ghanees immigrantengezin in de VS dat zucht onder het juk van verdriet, depressie en verslaving. Het is een wonderschoon geschreven en emotioneel zeer beladen opvolger van het fenomenale Weg naar huis, en is de meesterproef van het literaire talent Yaa Gyasi.

De onbeduidende Jude Thomas Hardy 2020-09-21 De onbeduidende Jude (Jude the Obscure) wordt algemeen beschouwd als de beste roman van Thomas Hardy. Het boek schildert het leven van individuen die worden vermorzeld door krachten die ze niet kunnen beheersen. Jude Fawley is een onbeduidende wees die ervan droomt aan de universiteit in Christminster te kunnen studeren. Iemand te worden. Dan komt het aardse plattelandsmisje Arabella Donn in zijn leven, en hij raakt op een zijspoor. Jude trouwt met Arabella, maar zij verlaat hem. Vervolgens wordt hij verliefd op zijn nicht, Sue Bridehead. Met haar lijkt hij het geluk te vinden. Maar als het noodlot toeslaat, blijkt verrassend genoeg de moderne en geëmancipeerde Sue eraan onderdoor te gaan. Deze roman, gepubliceerd in 1895, zou Hardy's laatste zijn. De openheid over seksualiteit, de kritiek op het huwelijk, op het universitaire systeem en op de Kerk schokten het publiek. Hardy richtte zich de rest van zijn leven uitsluitend op zijn poëzie. De taal van Thomas Hardy is prachtig, geestig, scherp en eigenzinnig. Zijn decorbeschrijvingen zijn fenomenaal.

The History of Cartography, Volume 6 Mark Monmonier 2015-05-18 For more than thirty years, the History of Cartography Project has charted the course for scholarship on cartography, bringing together research from a variety of disciplines on the creation, dissemination, and use of maps. Volume 6, Cartography in the Twentieth Century, continues this tradition with a groundbreaking survey of the century just ended and a new full-color, encyclopedic format. The twentieth century is a pivotal period in map history. The transition from paper to digital formats led to previously unimaginable dynamic and interactive maps. Geographic information systems radically altered cartographic institutions and reduced the skill required to create maps. Satellite positioning and mobile communications revolutionized wayfinding. Mapping evolved as an important tool for coping with complexity, organizing knowledge, and influencing public opinion in all parts of the globe and at all levels of society. Volume 6 covers these changes comprehensively, while thoroughly demonstrating the far-reaching effects of maps on science, technology, and society—and vice versa. The lavishly produced volume includes more than five hundred articles accompanied by more than a thousand images. Hundreds of expert contributors provide both original research, often based on their own participation in the developments they describe, and interpretations of larger trends in cartography. Designed for use by both scholars and the general public, this definitive volume is a reference work of first resort for all who study and love maps.

Wacht! Wacht! Terry Pratchett 2011-05-30 Flinx zei: 'Zie je soms wat eigenaardigs aan het topje van die toren?' Dendarm staarde omhoog en lachte zenuwachtig. 'Nou, het is net of er een draak opzit, hè? Alleen, als je zo'n beetje goed ernaar kijkt, zie je wel dat het gewoon schaduwen en plukken klimop en zo zijn.' Flinx probeerde het. 'Nietes,' zei hij. 'Ziet er nog steeds uit als een draak. Een hele grote.' Met al hun occult gestuntel lukt het de Unieke en Hoogstverheven Loge van Verhelderde Mannenbroeders om een enorme draak op te roepen. Die willen ze inzetten om van de grote stad Ankh-Meurbork weer een grootse stad te maken. Maar als de hete drakenadem de hele stad in de as dreigt te leggen moeten Kaptein Flinx en zijn prachtkerels, onder wie nu ook Veldwachter Biet en de Bibliothecaris (onbezoldigd), weer uitkomst brengen. Met Braverd Bingel Vederstien, het mascottedraakje van de Wacht.

United States and Pakistan in the 21st Century Syed Tahseen Raza 2020-11-11 This book historically maps and examines the evolving, contemporary geostrategic and geopolitical imperatives of the United States within Pakistan and the South Asian region, especially after September 11, 2001. It offers a detailed and theoretical account of the rapidly changing context of US foreign policy towards Pakistan after 2001. The history of the US-Pakistan relationship has been a complex and inscrutable mix of cooperation and conflict has turned even more challenging after 9/11. This book covers the latest developments and relevant themes from world politics as it discusses the impact of the unprecedented rise in religious extremism in Pakistan, stemming from the US War on Terror as well as Pakistan's economic vulnerability and military dictatorship, India's offer to support the US in its war in Afghanistan, Pakistan's nuclear capability, and the US administration's decision to end financial aid to Pakistan. The study highlights the fact that, from the receding of British influence in the region through the Cold War and post-Cold War phases

to the post-9/11 period, US-South Asia policy has been informed by the theoretical paradigm of the grand strategy of primacy. This topical book will be useful to scholars and researchers of international relations, politics, political studies, strategic and defence studies, security and peace studies, foreign policy, area studies, and South Asian studies. It will also interest diplomats, politicians, policymakers, security experts, journalists, and think tanks interested in India, Pakistan, and the United States on issues of international politics, world affairs, and terrorism.

De oorsprong van l'art nouveau Gabriel P Weisberg 2004 The opening of Sigmund Bing's gallery L'Art Nouveau had been an eagerly expected event in the Paris art world throughout the latter half of 1895, since Bing first announced that he would be soon exhibiting artistic furniture. The doors finally opened on 26 December 1895 as visitors poured in at 22 Rue de Provence to admire Bing's collection. Beginning with Bing's special feeling for Asian art, the author discusses his many other eclectic interests in art. Over 300 colour illustrations show the objects that were traded in his gallery: Tiffany glass, paintings and

sculptures by Henri Toulouse Lautrec, Rodin, Claudel and Vuillard, as well furniture, ceramics and jewellery by Van de Velde, Colonna, De Feure and Gaillard. The book is based on extensive archive research, tracing destinations of the art objects that Bing traded to collectors and museums or sponsored personally. The authors show how one man, an art dealer, became an international trendsetter who influenced the canon in Europe and the US. The result is a renewed appreciation of Sigmund Bing's role as the principal founder of the new style that carries the name of his gallery: Art Nouveau.
