Zelfcompassie Kristin Neff 2011-08-12 Compassie hebben met anderen, dat lukt meestal wel. Maar compassie hebben met jezelf is vaak een stuk moeilijker. Dat ontdekte psychologe en boeddhist Kristin Neff na haar pogingen om los te komen van de problematische relatie met haar vader. Steeds weer belandde ze bij verkeerde mannen en in relaties die haar niet gelukkig maakten, totdat ze beseftte dat ze pas liefde kon geven als ze zichzelf liefhad. Zelfcompassie gaat volgens Kristin Neff om drie dingen: begrip voor jezelf als je het moeilijk hebt, acceptatie dat lijden onvermijdelijk deel uitmaakt van het leven, en het onder ogen zien van je eigen emoties, zonder te oordelen.

The One-on-One Reading and Writing Conference Jennifer Berne 2015 Personal interactions are the single most effective way for teachers to understand and evaluate their student as learners. Responding specifically to new Common Core State Standards in reading and writing, this book introduces pre- and inservice teachers to a method of one-on-one interaction the authors refer to as the "stretch conference." This book provides detailed practical advice on the logistics of implementing these conferences during the busy school day, including tips on how and when to schedule conferences and how to successfully manage the classroom during conference time. The authors argue that, rather than using valuable conference time for word-level concerns and editing, teachers should focus on more ambitious goals that will deepen (or "stretch") students' skills in comprehension and writing. This resource suggests where conferences fit in with other important pieces of literacy instruction;

introduces a variety of high-quality cues to use during conferences; and shows how conferences can function as formative assessment for reading and writing skills. Book Features: Written by two veteran teacher educators who conduct frequent workshops and professional development with teachers. Helps teachers adjust their instruction for the demands of Common Core Standards, specifically Reading Anchor Standards 1 and 10, and Writing Standards 1–5 and 10. Shows teachers how to schedule individual conferences within typical classroom time constraints. Includes many detailed examples of effective conferences taken from real classrooms. “A roadmap for engaging students in conversations that will change their understanding. Frankly, it’s an amazing resource and one that has changed my thinking about classroom instructional time.” —From the Foreword by Douglas Fisher, San Diego State University “A critical opportunity to reflect on our practice, examining whether the content of our conferences is aligned with the rigorous expectations of the Common Core.” —Sunday Cummins, literacy consultant and author

Bridging the Literacy Achievement Gap, Grades 4-12 Dorothy S. Strickland 2004-05-26 This book addresses critical issues related to pre-adolescent and adolescent literacy learners with a focus on closing the achievement gap. Despite efforts by educators and policymakers during the past several decades, certain groups of students--primarily African American students, English language learners, and students from low-income homes--continue to underperform on commonly used measures of academic achievement. Too often, teachers and administrators lack both proper preparation and good ideas to confront these issues.

Literacy Instruction for English Language Learners Pre-K-2 Diane M. Barone 2018-10-16 Summarizing current research and weaving it into practical instructional strategies that teachers can immediately use with young English language learners (ELLs), this book addresses a major priority for today's primary-grade classrooms. All aspects of effective instruction for ELLs are explored: oral language development and instruction, materials, word study, vocabulary, comprehension, writing, and home-school connections. Assessment is discussed throughout, and is also covered in a separate chapter. The volume is packed with realistic examples, lesson planning ideas, book lists, online resources, and reproducibles. Discussion and reflection questions enhance its utility as a professional development tool or course text.

A Descriptive Study of the Use of Reading Strategies in Illinois Vocational Classrooms Sara Ann Supancic 2006 Reading comprehension and retention of text is a problem in Illinois vocational high school classrooms. Research has shown that reading strategies, such as pre-reading activities, guided reading activities, vocabulary based activities; note taking activities and graphic organizers, can help to remedy this problem. A survey was constructed to question the use and success of reading strategies in Illinois high school vocational classrooms. The survey was distributed to vocational high school teachers in Illinois. After evaluation of the survey results, it was determined that Illinois vocational high school teachers use reading strategies in the classroom. The most commonly used strategies are note taking activities, vocabulary based activities and pre-reading activities. The results of the survey also revealed that Illinois vocational high school teachers feel that using reading strategies increase both reading comprehension and retention of the text.

Lessons in Teaching Reading Comprehension in Primary Schools Suzanne Horton 2015-07-13 Lesson planning in line with the new Primary National Curriculum! Why do we teach children to read? It is not merely to decode the words. We teach them to derive meaning from the text, to comprehend it. To not just read the lines, but to read between the lines and even read beyond the lines. So how can you make teaching comprehension in primary schools effective and engaging? How are you ensuring that children are finding meaning in what they read and how do we support more able readers to learn more? What does a good 'reading' lesson look like? This book demonstrates the effective teaching of reading through exemplar lessons. It discusses what makes them good lesson plans and how they can be adapted to suit different classes and different schools. In particular, this book helps you to meet the needs of more able readers particularly in years 5 and 6, outlining ways to challenge more able pupils to support them with the level 6 tests in Year 6. It helps you to cultivate your subject knowledge and invigorate your classroom teaching through focusing on what children need to learn and how to teach it. Did you know that this book is part of the Lessons in Teaching series? **WHAT IS THE LESSONS IN TEACHING SERIES?** Suitable for any teacher at any stage of their career, the books in this series are packed with great ideas for teaching engaging, outstanding lessons in your primary classroom. Using Pre-reading Learning Strategies to Better Prepare ELLs for Texts in Guided Reading Valissa Maas 2007 This study investigates the use of reading strategies to better prepare English language learners (ELLs) for texts in a third-grade pull-out guided reading class. Five ESL students of varying language backgrounds participated in the action research study for 20-25 minutes daily for three weeks. Pre-reading strategies were incorporated into lesson plans for daily instruction. Checklists, observations, audio recordings, journaling, field notes and anecdotal records document instruction and student learning. The study concluded with an interview of the five participants. The study reveals explicit pre-reading strategy instruction, careful modeling, and scaffolding are beneficial in preparing ELLs for texts in guided reading.

Literacy Education Robert J. Tierney 2021 "The scope and nature of this account of the modern history of reading/literacy education (especially tied to the aspirational readers) are unique. Enlisting the metaphor of waves, it traces monumental shifts in theory, research and practice related to reading education and literacy that represent developments that verge on revolutionary changes. Each of these waves is accompanied with a discussion of the aspirational reader that sets the stage for contemplating these shifts and their significance. The discussions trace the research and theoretical developments in a fashion that

exemplifies the origins of the shifts and their influences"--

Grade Passages and Questions for Guided: Level C - D Guided Reading Comprehension Pre K, Reading Comprehension Kindergarten Books Passages and Questions for Guided for PreK, Kindergarten, First Grade: These Reading Passages with Text-Based Questions are designed to help students transition from Guided Reading Level C to Guided Reading Level D. As students work through this pack, they use evidence from the text to answer a variety of questions. In doing so, they participate in their very first (simple) close reading lessons. This packet includes 30 reading comprehension and skills grade 2 with three questions per passage. Each passage is presented twice. - In the first set, the passages are provided in a standard format. I have students circle the correct answer and also write it on the line. - In the second set, a color-coded crayon is provided in each answer box. Students use that color to underline the evidence in the text that supports each answer & also answer in a standard format. Supports the following Kindergarten and First Grade standards: CCSS ELA-Literacy.RL.1.1 - Ask and answer questions about key details in a text. CCSS ELA-Literacy.RL.K.1 -With prompting and support, ask and answer questions about key details in a text. If multiple choice questions are new to your kids, I recommend putting simple questions in a multiple choice format during calendar time or other daily routines. I like to give each student a strip of cardstock with A, B and C written on it and have them practice answering multiple choice questions by clipping a clothespin on the correct answer. This is an easy, fun way for kids to develop confidence answering multiple choice questions. Once kids are comfortable with the multiple choice format, I like to discuss the first few passages with groups and demonstrate how to answer the simple text-based multiple choice questions. Some of the passages are similar to each other so you can use one passage to teach/model and the other to check each student's understanding during independent work. I am finding that, with guided practice, kids quickly develop the skills they need to be successful reading these passages and independently answering the multiple choice questions. These reading comprehension pre kindergarten passages are based on common sight words. I also have kids find and highlight selected sight words. Supports the following standards: CCSS ELA-Literacy.RF.1.3g - Recognize and read grade-appropriate irregularly spelled words (for beginning of year words). CCSS ELA-Literacy.RF.K.3c - Read common high-frequency words by sight. Thank you for looking! - Reading Comprehension Passages and Questions Education

Creating Literacy Instruction for All Children in Grades Pre-K to 4, MyLabSchool Edition Thomas G. Gunning 2004-12 In response to today's needs to tailor instruction for the lower grades (pre-K-4), this new text features sample lessons for virtually every major literacy skill/strategy and offers numerous reinforcement suggestions and generous listings of materials appropriate for the lower grades. The methods emphasized are those that have been validated by research and/or practice. Extensive coverage is provided for areas of instruction mandated by federal programs such as Reading First: phonological awareness, phonics,

fluency, vocabulary, and comprehension. However, the text also presents the theories behind the methods, so readers will be free to choose, adapt, and/or construct their own approaches as they create a balanced program of literacy instruction. Features "Lessons" appear throughout the text and provide step-by-step lesson plans for nearly every area of literacy instruction. All lessons include suggestions for assessment. Emphasis on English language learners within regular classrooms, including coverage of Sheltered English, of assessment for ELLs throughout the text, and more children's books for both struggling readers and ELLs, and marginal annotations on Adapting Instruction for English Language Learners. "Help for Struggling Readers and Writers" section concludes Chapters 3-13 and provides practical, specialized suggestions for helping students become stronger readers and writers and for ways in which teachers can adapt instruction or assessment to meet the needs of underachieving readers and writers. To make the text as practical as possible, each chapter concludes with an "Action Plan" that provides specific suggestions for applying each of the key concepts and assessment and teaching suggestions discussed in the chapter. "Children's Reading List" appears in every chapter, providing lists of appropriate titles for skill reinforcement. "Exemplary Teaching" boxes throughout the text bring teaching techniques to life with real-life experiences of gifted teachers and the author's own experiences. An "Essential Standards" section lists specific literacy curriculum goals so students and professors can focus on key objectives, and "Assessment" sections provide specific focus on evaluation issues and ideas for individual chapters (Chs. 3-13). Emphasis on guided reading and matching readers with appropriate texts for grades Pre-K-4. Unique "Leveling Books System," enables students to better understand what makes a book difficult to read and provides an easy-to-use system so that they can level books on their own. Widely used leveling systems are explained and compared. Sources of extensive lists of leveled books are provided (Ch. 2). Unique Appendix A includes a graded listing of 1,000 books where suggestions are made for easy, average, and challenging fiction and informational books at each grade level (Pre-K to 4). Students will have ready access to the readability levels of the most popular books in grades Pre-K to 4. The use of technology has also been highlighted. Going beyond simply listing interesting Websites, the text has specific age-appropriate suggestions for teaching students how to use the Internet as a learning tool in grades Pre-K to 4.

Truly Guided Reading Liz Simon 2014-01-21 Guided Reading is the classroom Reading Recovery with supplements. In the classroom every child is involved in focussed reading instruction, small groups necessitate exceptional organization, all this without the year-long training that Reading Recovery participants have. Over the years teachers have been directed towards Guided Reading without knowledge of how to organize the class while working with small groups and further, without the knowledge of what is involved in overt reading instruction. This book will change that and give teachers the resources to organize and put in place worthwhile and relevant activities for children to independently engage in. In this book, significant suggestions are forwarded to make Guided Reading easier to implement and more effective. This book challenges held views about Guided Reading - misconceptions and misapplications of Guided Reading will be highlighted and in place will be effective pedagogy to help children move towards being truly confident, thinking readers. The teaching practices emphasized are: * Managing differentiated reading instruction for early, developing, early fluent readers, including a chapter relating to older readers. * Class management while working with small groups - independent tasks. * Questioning and prompting so children acquire and use self-help reading and comprehension strategies. * Encouraging student talk where they explore and exchange ideas. * Assessment (and recording) that informs instruction.
