Dyslexia in the Secondary School Jenny Cogan 2004-01-16 This book explains why dyslexic students frequently underachieve and demonstrates that adjustments in teaching and learning methods can make all the difference, provided that underlying problems are identified. After reading 'Dyslexia in Secondary School,' teachers will be able to identify children with specific learning problems and know better how to help them with their school work. Examples are based on the curriculum and used to show how to advise students on essay-writing, note taking, memorising vocabulary and reading to remember. Parents and specialist teachers will find that the book helps them translate educational psychologists' theory into practical action. The students themselves will be encouraged to look carefully at how they learn, and, using their strengths rather than their weaknesses, try out alternative strategies. This book contains diagrams, mind maps, and worksheets as well as many ideas for teachers. Focusing as it does on the way we learn, 'Dyslexia in Secondary School' will interest all teachers and students - not just those with specific learning difficulties.

Growing Up With Tanzania F. Hirji 2014-07-17 In *Growing up with Tanzania*, Karim Hirji, a renowned Professor of Medical Statistics and Fellow of the Tanzania Academy of Science, presents a multi-faceted, evocative portrait of his joyous but conflicted passage to adulthood during colonial and early-Uhuru Tanzania. His smooth style engages the reader with absorbing true tales, cultural currents, critical commentary and progressive possibilities. By vibrantly contrasting the hope-filled sixties with the cynical modern era, he also lays bare the paradoxes of personal life and society, past and present.

Transforming Reading Skills in the Secondary School Pat Guy 2015-05-14 *Transforming Reading Skills in the Secondary School* is a commonsense text designed to help practitioners working in a mainstream context. The book suggests ways to develop the underlying skills necessary for good reading through multiple pathways such as mainstream subject lessons, individual and small group support sessions, whole school initiatives, the use of reading mentors and home-school liaison opportunities. Brimming with ideas and activities, Pat Guy explores a variety of different aspects of reading, including: how reading is taught and why it is such an important skill for the individual how to motivate the reluctant reader the role played by the mainstream & specialist teacher underlying problems pupils may face how to increase parental involvement reasons why a pupil's comprehension might be limited the role of the School Librarian the relevance to reading of vocabulary and general knowledge. Anyone wanting to develop the reading skills of secondary pupils who struggle will find this a resource they return to time and time again.
