The Flight of Icarus Raymond Queneau 1973 The Flight of Icarus is Raymond Queneau's only novel written in the form of a play: seventy-four short scenes, complete with stage directions. Consciously parodying Pirandello and Robbe-Grillet, it begins with a novelist's discovery that his principal character, Icarus by name, has vanished. This in turn, sets off a rash of other such disappearances.

Collected Poems 1912-1944 Hilda Doolittle 1986-02-17 The Collected Poems 1912-1944 of H. D. brings together all the shorter poems and poetical sequences of Hilda Doolittle (1886-1961) written before 1945. Divided into four parts, this landmark volume, now available as a New Directions Paperbook, includes the complete Collected Poems of 1925 and Red Roses for Bronze (1931). Of special significance are the "Uncollected and Unpublished Poems (1912-1944)," the third section of the book, written mainly in the 1930s, during H. D.'s supposed "fallow" period. As these pages reveal, she was in fact writing a great deal of important poetry at the time, although publishing only a small part of it. The later, wartime poems in this section form an essential prologue to her magnificent Trilogy (1944), the fourth and culminating part of this book. Born in Pennsylvania in 1886, Hilda Doolittle moved to London in 1911 in the footsteps of her friend and one-time fiancé Ezra Pound. Indeed it was Pound, acting as the London scout for Poetry magazine, who helped her begin her extraordinary career, penning the words "H. D., Imagiste" to a group of six poems and sending them on to editor Harriet Monroe in Chicago. The Collected Poems 1912-1944 traces the continual expansion of H. D.'s work from her early imagistic mode to the prophetic style of her "hidden" years in the 1930s, climaxing in the broader, mature accomplishment of Trilogy. The book is edited by Professor Louis L. Martz of Yale, who supplies valuable textual notes and an introductory essay that relates the significance of H. D.'s life to her equally remarkable literary

achievement.

The three sequences in the books—"Logging," "Hunting," "Burning"—show the remarkable cohesiveness in Snyder's writings over the years, for we find the poet absorbed, then as now, with Buddhist and Amerindian lore and other interconnections East and West, but above all with the primeval devotion to the land and work. Poems for the Game of Silence Jerome Rothenberg 2000-11 "I look for new forms and possibilities," writes Jerome Rothenberg in Poems for the Game of Silence, "but also for ways of presenting in my own language the oldest possibilities of poetry going back to the primitive and archaic cultures that have been

opening up to us over the last hundred years." It is this combined sense of mystery and authenticity, in words and new structures that approach archetypal chant, that informs his poetry. First published in 1971, this volume brings together a selection of Rothenberg's early groundbreaking work: a wide range of experimental forms, both written and oral, set beside renderings of Native American, Australian, and other primitive songs, as well as the ancestral poems exploring his own origins that look forward to his later poetry.

*A Russian Doll and Other Stories* Adolfo Bioy Casares 1992 This collection of traditional and experimental stories by Argentinian novelist Bioy Casares ( *The Adventures of a Photographer in La Plata* ) offers sophisticated, seamless prose, as well as magical realism and biting political satire. - Publishers Weekly

*Raymond Queneau's Dubliners* James Patrick Gosling 2019-09-12 This work is a broad-ranging exploration of two comic erotic and well-nigh feminist novels written by Raymond Queneau, *On est toujours trop bon avec les femmes* (1947) and *Journal intime* (1950). Both are set in Ireland, were initially published by Éditions du Scorpion under the pseudonym Sally Mara, and then later published together by Gallimard as *Les Œuvres complètes de Sally Mara* (1962). The book examines Queneau's life when he wrote these texts, the pervasive Joycean influences, his surreal version of the 1916 Dublin Uprising versus the real event, his remarkably accurate Dublin city and his use of the Irish language. The seven core chapters are explorations of prominent aspects of these works, and most involve the solution of puzzles by means of investigations of contexts, contemporary events, and a wide variety of sources. In conclusion, the book makes a convincing case for the literary and entertainment value of *Les Œuvres complètes de Sally Mara* as a long-planned and subtly integrated work.

*A Tree Within* Octavio Paz 1988

*One Hundred More Poems from the Chinese: Love and the Turning Year* 1970-01-17 An assemblage of delicate Chinese verse which delicately explore the worlds of love, nature, and meditation. Love and the

Turning Year includes a selection from the Yueh Fu—folk songs from the Six Dynasties Period (fourth-fifth centuries A.D.). Most of the songs are simple, erotic lyrics. Some are attributed to legendary courtesans, while others may have been sung at harvest festivals or marriage celebrations. In addition to the folk songs, Rexroth offers a wide sampling of Chinese verse: works by 60 different poets, from the third century to our own time. Rexroth always translated Chinese poetry—as he said—“solely to please myself.” And he created, with remarkable success, English versions which stand as poems in their own right.

Automatic Society Bernard Stiegler 2018-03-15 In July 2014 the Belgian newspaper Le Soir claimed that France, Belgium, the United Kingdom, Italy, Poland and the United States may lose between 43 and 50 per cent of their jobs within ten to fifteen years. Across the world, integrated automation, one key result of the so-called ‘data economy’, is leading to a drastic reduction in employment in all areas - from the legal profession to truck driving, from medicine to stevedoring. In this first volume of a new series, the leading cultural theorist Bernard Stiegler advocates a radical solution to the crisis posed by automation and consumer capitalism more generally. He calls for a decoupling of the concept of ‘labour’ (meaningful, intellectual participation) from ‘employment’ (dehumanizing, banal work), with the ultimate aim of eradicating ‘employment’ altogether. By doing so, new and alternative economic models will arise, where individuals are no longer simply mined for labour, but also actively produce what they consume. Building substantially on his existing theories and engaging with a wide range of figures - from Deleuze and Foucault to Bill Gates and Alan Greenspan - Automatic Society will appeal to students and scholars across the social sciences and humanities, as well as anyone concerned with the central question of the future of work.
